They look like glass flasks filled with some liquid of strange properties. There are both buff and debuff potions. To be able to brew potions you need to enter The Nether, conquer a Nether Fortress, find and harvest netherwart and kill some blazes in order to get their drops, blaze rods. This can be done fairly quickly for an expert survivalist. UHC players are usually able to leave The Nether with all the ingredients needed for the recipe in less than a half an hour after starting a new game. We are aware, though, that experts are a minority and that the hellish dimension is one many Minecraft players still fear. Fire, lava and small fireballs from blazes are a real problem; so are the withering effects of Wither Skeleton swords and the long-range querulous ghosts that inhabit the reddish lands. Hopefully some status effects are available even if you dont enter The Nether. Thats certainly good news, but the bad part is that you will need both patience and skill. We will share our tricks later; for now, you should know that you can avoid any fire damage in The Nether if you follow our strategy. Potions are essential to Minecraft PvP. While in factions and anarchist servers they are not that important, PotPvP and UHC rely deeply on them, especially the former.? Download your copy today!
