

This is a self-help hypnotherapy recording for children of about 4-9 years. In this recording, Lynda uses the power of the child's imagination and takes them on an interactive fantastical journey on a flying hammock to a special better and better pool where they can play in the water and leave their old thumb-sucking habit behind. Embedded in the story are suggestions for feeling comfortable and confident without the need for sucking their thumbs. Lynda's gentle, well-modulated, English voice calms, re-assures and encourages as they listen. The more they listen, the more the old thumb-sucking habit (so harmful to their teeth) fades away.
